## ACADEMIC INTERESTS

I develop methods and conduct large simulations to understand what **gravitational waves** emitted by compact object (**black hole** and **neutron star**) mergers can teach us about the formation, lives, and explosive deaths of **massive stars** throughout **cosmic history**. My interdisciplinary work combines the fields of **statistics**, **data science**, and **astrophysics** to quantify uncertain physics in these large computational simulations, and tackles the key bottleneck in gravitational-wave astrophysics: **the “Uncertainty Challenge”** with the ultimate goal to learn about fundamental physical processes in our Universe in the new **Big Data** gravitational wave era.

## CURRENT POSITIONS

**UC San Diego**, CA, USA 2024—now  
Tenure-track Assistant Professor, Department of Astronomy & Astrophysics

## PREVIOUS POSITIONS

**Columbia University**, NYC, USA 2023—24  
Junior Fellow in the [Simons Society of Fellows](#): an interdisciplinary Postdoc Fellowship funded by the Simons Foundation

**Co-PI AstroAI**, MA, USA 2023—24  
A new center for AI, at the Center for Astrophysics | Harvard & Smithsonian

**Johns Hopkins University**, MD, USA 2023—24  
Tenure-track Assistant Professor (0 FTE). I held this position while deferring a tenure-track faculty offer from JHU during my postdoc appointment.

## EDUCATION

**Harvard University**, Cambridge, MA, USA 2019—23  
**Ph.D.** Astrophysics (May 2023), Advisor: Edo Berger  
**M.S.** Astrophysics (May 2022)

**University of Amsterdam & VU University** (joint degree) 2013—18  
Amsterdam, The Netherlands  
**M.S.** Astronomy (Aug 2018), Cum Laude  
**B.S.** Physics and Astronomy (Aug 2017)  
**B.S.** Mathematics (Aug 2017)

**Lund University**, Lund, Sweden (6 months) 2017  
**Erasmus exchange** in Applied Mathematics and Astrophysics

<b>SELECTED FUNDING (PI)</b>	• UCSD VCRI “Influence and Convene” award for SMASH collaboration (\$25k)	2025
	• Funding for UCSD STEM-wide ML Hackathon for 200 students (\$4k)	2025
	• NASA GWTC Grant for leading Astronomy Software Workshop (\$80k)	2025
	• NASA HPOSS Open Software Solicitation Grant (\$110k)	2024
	• Funding for SMASH AI and Data Science x Astro initiative (\$15k)	2024
	• Funding for UCSD International Astronomy Affinity group	2024
	• <a href="#">Simons Society of Fellows Award</a> , Simons Foundation (~\$450k)	2023
	• Fund for <a href="#">Early Career Astronomers &amp; Their Supporters Workshop</a> (~\$15k)	2022
• <a href="#">NASA FINESST Future Investigator Fellowship</a> (\$100k)	2022	
<b>SELECTED AWARDS</b>	• <a href="#">Cecilia Payne-Gaposchkin Doctoral Dissertation Award</a> in Astrophysics	2024
	• Selected as one of the <a href="#">2024 Rising Stars in Physics</a> , Columbia University	2024
	• GWIC-BRACCINI Thesis prize; finalist	2024
	• <a href="#">Harvard Keto Prize</a> for best Theoretical Astronomy Ph.D. Thesis	2023
	• <a href="#">Harvard Horizons Fellow 2023</a> , Harvard University	2023
	• <a href="#">Martin and Beate Block Award</a> for ‘a promising young physicist’	2022
	• First prize for best Astronomy M.S. thesis, University of Amsterdam	2018
	• Second prize best Astronomy thesis presentation, University of Amsterdam	2018
	• <a href="#">McKinsey Excellence Talent Award</a> for a promising scholar	2018
• Third place in National Astrophysics Olympiad The Netherlands	2013	
<b>SELECTED FELLOWSHIPS</b>	• <a href="#">RCSA Scialog Fellow</a> for early Science with the LSST	2024—26
	• Faculty Affiliate, Halicioğlu Data Science Institute (HDSI), CA, USA	2024
	• Faculty Fellow, San Diego Supercomputer Center (SDSC), CA, USA	2024
	• Several Postdoc fellowships including MIT Pappalardo, NASA Hubble, CITA, Dunlap, JHU Miller, (declined)	2024
	• <a href="#">HPC Europa 3 Fellow</a> (including 1000k CPU hours)	2022
	• Dutch talent Fellowship “ <a href="#">Prins Bernhard Cultuurfonds</a> ” (\$25k)	2021
	• <a href="#">HPC Europa 3 Fellow</a> (incl. 500k CPU hours)	2018
	• <a href="#">Kavli International Summer School Fellowship</a>	2017
	• <a href="#">Erasmus Program Scholarship</a> for exchange to Lund, Sweden	2016
• <a href="#">ASTRON/JIVE International Summer Program Fellowship</a>	2016

## **SOFTWARE & DATA**

I advocate for open and reproducible science. I make all code and data to reproduce results and figures in my scientific work publicly available. Below are four out of many highlighted code and data publications. See for a full list my [Github](#), and [Zenodo](#).

## **PUBLICATIONS**

7. Tom Wagg & **F.S. Broekgaarden**, The Software Citation Station (2025), [GitHub](#), 80 paper citations
6. **F.S. Broekgaarden**, (2024), Data set from: Gravitational Wave Visualizations, Zenodo <https://doi.org/10.5281/zenodo.7793213>, >100 downloads
5. **F.S. Broekgaarden**, (2022), Data set from: Mass Ratio Reversal Project, Zenodo <https://doi.org/10.5281/zenodo.6978990>, >100 downloads
4. **F.S. Broekgaarden**, I. Mandel, (2022), Data set from: Rates of Compact Object Coalescences, Zenodo <https://doi.org/10.5281/zenodo.7017532>, >4000 downloads
3. **COMPAS stellar evolution code**, COMPAS Collaboration; Riley, Jeff et al. (2022) **incl. Broekgaarden, F.S.**, [JOSS](#), [Github](#)
2. **F.S. Broekgaarden** (2021), several data sets of population synthesis simulations of BHBH, BHNS, and NSNS mergers, with over >1000 total downloads:
  - BHNS simulations [Zenodo](#), <https://doi.org/10.5281/zenodo.5178777>
  - NSNS simulations [Zenodo](#), <https://doi.org/10.5281/zenodo.5189849>
  - BHBH simulations [Zenodo](#), <https://doi.org/10.5281/zenodo.5651073>
1. **STROOPWAFEL** code and data to efficiently sample rare astrophysical events using adaptive importance sampling. **F.S. Broekgaarden**, (2019) <https://github.com/FloorBroekgaarden/STROOPWAFEL>, Zenodo: [zenodo.org/record/3627403](https://zenodo.org/record/3627403) and **L. Khandelwal & F.S. Broekgaarden**, (2020) **STROOPWAFEL PyPi version**: extended sampling from 3 dimensions to 10 dimensions, implemented generation adaptive importance sampling

## **RESEARCH ADVISING**

Supervised (~30) students from many different institutions/programs. My philosophy is to support students by sharing my [mentor/mentee expectations](#) and adapting to the student's strengths and personal goals (which may change over time), providing them opportunities to network, present their work, attend conferences, and contribute to large international collaborations. See [Gravitational Wave Paleontology Lab website](#) for more details. My research group actively supports many underrepresented minority students in astrophysics, including a high-school drop out, black in astrophysics students, hispanic students, international students, and many women+ students.

— Current Group 22 members —

– Current Postdocs –	
<b>Marko Ristic</b> , UCSD ML/AI Schmidt Fellowship	July 2026
<b>Steffani Grondin</b> , NSERC Fellowship, (co-adviser with Prof. Kremer)	Oct 2025
<b>Kyle Rocha</b> , (co-adviser with Prof. Kremer)	Oct 2025
– Current Ph.D students –	
<b>Melanie Santiago</b> , Astronomy & Astrophysics 1st year	2025—now
<b>Sasha Levina</b> , Astronomy & Astrophysics 3rd year	2023—now
<b>Tyler Smith</b> , co-mentor, 7th year, UC Irvine	2024—now
<b>Alex Migala</b> , Physics, 2nd year (co-adviser with Prof. Fuller)	2024—now
– Current MSc/predoc students –	
<b>Prajakta Saraf</b> , UCSD Data Science	2025—now
<b>Julia Haynes</b> , UCSD Data Science	2026—now
<b>Rhea Kumar</b> , UCSD Data Science	2025—now
<b>Phil van Lane</b> , UCSD - software scientist	2025—now
– Former MSc/predoc students –	
<b>Ana Lam</b> , <i>CUNY/CCA MSc.</i>	2023—2025
<b>Amedeo Romagnolo</b> , (now Postdoc at Heidelberg U.)	2024—2025
<b>Ayanah Carson</b> , Astrophysics MSc student co-mentor	2025—now
<b>Loki Khandelwal</b> , <i>UvA, The Netherlands</i> , (M.S. student)	2019–2020
<b>Floris Kummer</b> , <i>UvA, The Netherlands</i> , (M.S. student)	2019–2020
→ Now PhD student at University of Amsterdam

<b>Danielle Smart</b> , CENCE bridge program, (main advisor: Ana Lam)	2024–2025
<b>Adam Boesky</b> , <i>Harvard University, USA</i> , (undergraduate)	2022–2024
→ Ph.D. at Harvard University	
<b>Simone Abeti</b> , <i>Milan University, Italy</i> , (undergraduate)	2022–2023
<b>Kaylie Hausknecht</b> , <i>Harvard University, USA</i> , (undergraduate)	2021–2022

**Tom Wagg**, *Harvard University, USA*, (undergraduate) 2019–2021  
→ Ph.D. at UW → Computational Center for Astrophysics Prize Postdoc

## MENTORING EXPERIENCE

I immensely value (peer-) mentoring programs and early-career support networks. I have contributed as a mentor to several mentoring programs and (helped) established several mentoring networks over the past years.

### Served as a mentor in several mentor programs including:

- UCSD SPURS mentor (2025)
- UCSD URS mentor (2025)
- CalBridge mentor (2025)
- STARTAstro mentor (2025)
- STARS mentors (2025)
- CUNY Mentoring Program (2023, 2024, 2025)
- Columbia Mentoring Program (2023, 2024)
- The [SAO–UMass Latino Initiative Program](#) (2021 & 2022)
- The Harvard [AEMES Mentorship Program](#) (2021)
- The Harvard Astronomy peer-mentoring program (2021)
- [W+OCP: The Woman of Color Program](#) (2021)

### Established mentoring networks

I have initiated several mentoring programs including at the annual European Astronomical Meeting (as part of the early-career workshop series I initiated) which served 140 participants. I have also initiated in 2019 an online [early-career astronomers network](#) to facilitate discussions between early-career astronomers that has grown to 4.5k members. In 2025 I initiated an international astronomers in the USA mentorship community with currently over 200 members.

### Mentoring with Ph.D. applications

I have written numerous [resources](#) for applying for Ph.D. positions in Astronomy, and every year I support  $\sim 10$  (mostly underrepresented minority) students with their applications by discussing the application timeline, providing feedback on written essays, and giving advice regarding offers and rejections.

**Mentored  $\sim 20$  Physics & Astronomy students**, University of Amsterdam 2017  
I mentored class of  $\sim 20$  second-year Physics & Astronomy B.S. students at the University of Amsterdam

## SELECTED INVITED REVIEW TALKS / PANELS

$\sim 10$  out of 40+ total, see [website](#) for a full list. Due to travel limitations (applying to VISA) I had to reject most invitations in the past years

<a href="#">International Astronomical Union: Massive Star Meeting, Mexico</a>	Sep 2025
<a href="#">PAX workshop: Physics at the Extreme Illinois, USA (virtual)</a>	July 2025
Nevada CfA Gravitational Waves Conference	Mar 2025
<a href="#">TEONGRAV 2024, Italy</a>	Sep 2024
<a href="#">IAU Gravitational Waves 2024, South Africa</a>	Aug 2024
<a href="#">COSPAR 2024, Busan, South Korea</a>	July 2024
<a href="#">10th International Conference on Gravitation and Cosmology, India</a>	Dec 2023
<a href="#">SNEX: SuperNova EXplosions Conference, Israel</a>	Aug 2023
<a href="#">Amaldi15: International Conference on Gravitational Waves, virtual</a>	July 2023

Science with the Habitable Worlds Observatory and Beyond, <i>MD, USA</i>	July 2023
The Wolf-Rayet Conference, <i>Morelia, MEX</i>	June 2023
The APS/DGRAV Meeting, <i>Minneapolis, MN, USA</i>	Apr 2023
MIAPbP workshop on Impact of Binaries on Stellar Evolution, <i>Germany</i>	Nov 2022
TUTT Multi Messenger Workshop, <i>Otranto, Italy</i>	Sep 2022

**SELECTED  
INVITED  
COLLOQUIA  
& SEMINARS**

–See [website](#) for a full list–

• U. of Toronto Colloquium, <i>Toronto, Canada</i>	Sep 2025
• University of Oregon, <i>OR, USA</i>	May 2025

<b>INVITED AI/ML TALKS / PANELS</b>	Scientific Machine Learning for Gravitational Wave Astronomy, ICERM Workshop, <i>Brown University, USA</i>	June 2025
	EnCORE: UCSD Data Science Institute plenary talk	Mar 2025
	<a href="#">American Astronomical Society (AAS) 245</a> , AI town hall panelist,	Jan 2025
	<a href="#">American Astronomical Society (AAS) 245</a> AI Simulation Based Inference	Jan 2025
	<a href="#">Spring Workshop on Physics of Data</a> , <i>Venice, Italy</i>	Apr 2022
	Astro-statistics talk, Harvard University	Nov 2020
<b>INVITED OUTREACH TALKS</b>	• OSHER learning institute talk	Jan 2026
	• Plenary Speaker Undergraduate Research Conference, UCSD	Aug 2025
	• Salon Event UCSD, plenary speaker	May 2025
	• <a href="#">Columbia University Outreach Colloquium</a> , NYC, NY ,	April 2024
	• <a href="#">Harvard Horizons TEDx-like talk</a> , MA	April 2023
	• North Shore Amateur Astronomy Club, Boxford MA	Oct 2022
	• <a href="#">Podcast Astrophiz 150: Floor Broekgaarden, Gravitational Waves</a>	June 2022
	• Astronomical Society of the Palm Beaches	Sep 2021
	• <a href="#">Gloucester Area Astronomy Club (GAAC)</a> meeting	Apr 2021
	• Beacon Hill STEM Science Seminar, Harvard, USA	Apr 2021
	• <a href="#">Science In The News Seminar</a>	Feb 2021
	• <a href="#">Astro Chats with YouthAstroNet</a>	May 2020
	• Lunch Talks Ortec (Dutch optimization company)	May 2020
	• Mount Burnett Observatory Seminar, Melbourne, Australia	Apr 2019
<b>SELECTED INVITED DEI TALKS</b>	–5 out of 10+ total, see <a href="#">website</a> for a full list–	
	<a href="#">Conference for Women and Gender Minorities in Physics</a> , plenary speaker	Jan 2025
	<a href="#">Science Magazine: Invited Review on Disability Exhibition</a> ,	Nov 2024
	<a href="#">INAF Italian National Ph.D. School in Astrophysics</a> , plenary speaker	Sep 2023
	University of Michigan, DEI Colloquium	Nov 2023
	Women in Physics JHU Meeting	Sep 2023
	REU CfA Session and Panel	July 2022
ESO Conference: <a href="#">The Present and Future of Astronomy</a> , ( <i>virtual</i> )	Feb 2022	
<b>SELECTED DEPARTMENT AND UNIVERSITY LEADERSHIP</b>	<b>SMASH Hackathon</b> , SOC	2026
	UCSD ML hackathon with over 200 undergraduate participants	
	<b>SMASH Hackathon</b> , SOC	2025
	UCSD ML hackathon with over 200 undergraduate participants	
	<b>SMASH Data Science x Astrophysics Meetings–Founder/Chair</b> 2024– now Chair of new institute for accelerating AI in astrophysics and physics at UCSD. Organizing bi-weekly cross-campus meetings between UCSD’s Astrophysics, physics, and mathematics departments, the San Diego Supercomputer Center and UCSD’s HDSI data institute.	
	<b>Theory and Simulations Meetings – Founder/Chair</b> 2024—now New ‘STRAND’ Meetings for Theory Collaboration at UCSD	

**AstroAI – co-PI** 2023—2024  
New institute for accelerating AI in astrophysics at the Center for Astrophysics | Harvard & Smithsonian. I helped set this up and write proposals for seed funding.

**CfA–MIT Gravitational Wave Group – Founder/Chair** 2022—2023  
Initiated a new [group meeting series](#) to discuss the big open questions in gravitational-wave astronomy with researchers across different groups and divisions from Harvard and MIT. Received ~\$2k funding to support journal club. Currently initiating a white paper for the department Decadal Survey to establish a gravitational-wave center.

**CfA Gravitational Wave Workshop “Post-PAX” – Founder/Chair** 2022  
Initiated and organized an international two-day discussion-based workshop on gravitational-wave astrophysics at Harvard, hosting 50 attendees.

**“Where are the Black Hole–Neutron Star Binaries?” –Founder/Chair** 2021  
*European Astronomical Society (EAS) Meeting, Leiden, The Netherlands (virtual)*  
Initiated and led a [full day conference session](#) on black hole–neutron star binaries aimed to bring observers and theorists together to discuss open questions including: *Why have we not confidently detected a black hole-neutron star system yet?* I was in charge of writing the conference proposal, creating the SOC, inviting speakers, ranking submitted abstracts, and chairing and leading several (discussion) sessions. Coincidentally, the first two confirmed black hole-neutron star mergers, GW200105 and GW200115, were announced a day before our conference took place.

**Machine Learning Journal Club – Organizer** 2020–2022  
The Machine Learning Journal Club (MLJC) Meetings are bi-weekly gatherings with astronomers across different divisions at the Center for Astrophysics | Harvard & Smithsonian to discuss new research on topics of astrostatistics, Machine Learning and related fields. I organized these between 2020–2022.

**Weekly student-colloquium speaker lunch – Founder/Organizer** 2019–2020  
Initiated and led weekly lunch series between the astronomy graduate students of Harvard/CfA and the colloquium speaker to encourage networking

**LEADERSHIP  
IN  
SUPPORTING  
EARLY  
CAREER  
SCIENTISTS**

**International Astronomers Group, Founder** 2025—now  
USA wide affinity group for international astronomers in the USA.

**UCSD International Astronomers Affinity Group – Founder** 2024– now  
New affinity group to support and help international members of UCSD Astronomy and Astrophysics

**CfA “Early Career Astronomers & Their Supporters” – Founder/Chair**  
Center for Astrophysics | Harvard & Smithsonian Workshop series 2022–2023  
Founded a new workshop series on topics including mental health, job applications, fellowship writing, and mentoring. Workshop recordings and resources are posted [online](#) and have been accessed by thousands of astronomers world-wide. Led proposal that received ~\$15k funding to support workshop series.

**EAS “Early Career Astronomers & Their Supporters” – Founder/Chair**  
*European Astronomical Society (EAS) Meeting* Chair: 2021, SOC: 2022, 2023  
Initiated and led a full day conference on “[early-career astronomers & their supporters](#)” as part of European’s largest annual Astronomy meeting ‘EAS’ in 2021. The day included discussion sessions, a mentor-mentee lunch, and panels on careers in and

outside academia and was attended by over 500 participants. Program was repeated in 2022 and is as of 2023 integrated as a permanent component of the conference.

**Initiated several “Early Career Scientists” workshops** 2022–now  
 Initiated several workshops to support early-career scientists at a variety of venues including:

- ECA workshop ‘negotiating’, UCSD 2025
- ECA workshop Columbia University, 2024
- ECA panel U. of Arizona, Physics department 2024
- ECA talk U. of Arizona Astronomy department 2024
- ECA discussion CIERA, Northwestern U., 2023
- ECA session INAF PhD School, 2023
- ECA workshop Michigan University, 2023
- ECA workshop JHU University, 2023
- ECA talk CuWIP meeting, Baltimore, 2023
- ECA session TUTT workshop, *Otranto, Italy* Sep 2022
- Early Career Scientists Lunch GWPAAW, *Melbourne, Australia* Dec 2022
- Early Career Scientists Workshop, *Johns Hopkins University, Baltimore* Oct 2022
- Early Career Scientists Workshop, *L’Aquila, Italy* May 2022
- Early Career Scientists Workshop, *AEI, Potsdam, Germany* May 2022
- Early Career Astronomers Dinner, *Saas-Fee School, Switzerland* Apr 2022
- Early Career Astronomers Dinner, GW Workshop, *Bonn, Germany* Apr 2022

**Other Panels** 2025–now

- UCSD DEI panel during Open House Feb 2025

**SELECTED  
 DIVERSITY  
 EQUITY &  
 INCLUSION  
 LEADERSHIP**

**Advocacy to Improve Workplace Civility** 2019–

Led many initiatives to improve workplace civility. I have supported and helped resolve over 20 different harassment and bullying concerns at various astronomy departments and institutions. I also have advocated at several departments, conferences, and workshops for better support and resources regarding workplace civility, leading successfully to creating code-of-conducts, ombudspersons, and resource websites. Most of my advocacy regard private situations, but public things I have done include:

- [BAAS paper on improving harassment resources in Astronomy](#) 2023
- Member of the CfA Workplace Civility Committee 2022–2023
- Invited to speech at Harvard Grad Student Union rally against harassment 2021
- Invited panelist during department DEI meeting 2021
- Organized several training workshops on Workplace Civility at CfA 2020–2023
- Helped improve Harvard Union Support for harassment victims 2020–2022
- Co-wrote and maintain the Harvard Grad Student Code-Of-Conduct 2019–2023

**APS Inclusion, Diversity, and Equity Alliance, Harvard** 2020–2021

Founding member. Led the subcommittee that created better on-boarding documents for CfA members, and created the CfA department-wide [resource page](#)

**The roads to more inclusive (virtual) meetings in Astronomy** Sep 2020  
 Organized a workshop together with Karin Öberg as part of the Equity Inclusion Journal Club (EIJC) on how to make (virtual) meetings in Astronomy more inclusive. Based on AIP “[The time is now](#)” 2019 AIP TEAM-UP report and in collaboration with the Harvard BOK center.

<b>SELECTED ADDITIONAL LEADERSHIP</b>	<i>SMASH hackathon committee, SOC</i>	UCSD 2026
	<i>Gravitational Waves + r-process enrichment Conference</i>	SOC 2025
	<i>UCSD ArXiv Theory Coffee, Member</i>	UCSD 2025
	<i>UCSD Graduate Student Committee, Member</i>	UCSD 2025
	<i>SMASH hackathon committee, SOC</i>	UCSD 2025
	<i>Amaldi Early Career Travel Support committee, Member</i>	NSF 2025
	<i>SOC Binary Stars Conference, SOC Member</i>	Liege, Belgium 2025
	<i>UCSD Sponsor and Donor Committee, Member</i>	UCSD 2025
	<i>SOC Astro AI Conference EAS, SOC Member</i>	Padova, Italy 2024
	<i>SOC Astro AI Conference CfA, SOC</i>	Harvard University, USA 2024
	<i>ComSciCon Flagship Workshop, LOC Member</i>	2021
	<i>Graduate student representative for CfA director hire, Harvard</i>	2021
	<i>First year Astronomy Ph.D. Introduction Organizer, Harvard</i>	2020

<b>TEACHING EXPERIENCE &amp; TRAINING</b>	<b>Astronomy 121 The Explosive Universe, UCSD</b>	winter 2026
Brand new undergraduate level course on transient astronomy and the explosive universe.		

<b>Astronomy 201 Radiative Processes, UCSD</b>	fall 2025
Graduate level course on radiative processes	

<b>Astronomy 211 Stellar Evolution, UCSD</b>	winter 2025
Graduate level course on stellar evolution and stellar structure	

<b>Astronomy 214 Observational Astronomy, Harvard</b>	Fall 2022
Graduate level course on instrumental and observational astronomy with Daniel Eisenstein and Josh Grindlay	

<b>Guest Lecturer Gravitational Wave School, Saas-Fee, Switzerland</b>	Spring 2022
Taught week-long lectures on formation channels of compact object binaries to 50 PhD students	

<b>Guest Lecturer Python Latino Initiative Program, Harvard</b>	2020, 2021
Taught (2x) a guest lecture on data investigation with Python for the students from the LIP program.	

<b>Astronomy 1 Introduction to Astronomy, Harvard</b>	Fall 2021
General Education Course introducing Astronomy to undergraduate students with David Charbonneau.	

<b>Organizer of the “Mathematics lecturer of the year prize”,</b>	2016
Initiated and led the organization of a Mathematics teacher of the year prize	

<b>Board Member Educational Committee Mathematics,</b>	2014–2016
Student representative, contributed to designing the mathematics curriculum and improving the program	

### Teaching & Mentoring Training

Completed several training workshops on teaching in STEM including:

- Completed course *The Science of Teaching Science*, Harvard 2021
- Received Certificate of distinction in teaching, Derek BOK Center, Harvard 2021
- Various Harvard BOK center training workshops 2020, 2021, 2022
- Mentoring workshop for faculty, Harvard 2019

### Memberships & Affiliations

- Member of the American Astronomical Society (AAS)
- Member of the American Physics Society (APS)
- Member of Cosmic Explorer Collaboration
- Member of Einstein Telescope Collaboration
- Member of the COMPAS collaboration
- Co-PI AstroAI at Harvard University
- Junior Investigator NSF AI Institute [IAIFI](#)

### REFEREE & REVIEWER

NSF Proposal Review Panel  
Hubble Space Telescope Director Time Reviewer  
*Nature Astronomy*  
*Astrophysical Journal (ApJ)*  
*Astrophysical Journal Letters (ApJL)*  
*Astronomy and Astrophysics (A&A)*  
*MNRAS*
